

NIGERIA ELECTRICITY MARKET INSIGHTS

1 Headlines for March

- **Commencement of meter installations under the Map Regulation**

As at 24th April 2019, NERC officially issued permits to the MAPs of eight Discos. NERC expects meter rollout to commence on 1st May 2019.

Given this milestone, we wish to provide some insight on MAP implementation for success. It is pertinent that Discos assess their progress on the following key actions in advance of meter installation:

- Updated and accurate customer information;

- Comprehensive process for Disco communication to the MAP;
- Comprehensive process for MAP communication to the Disco;
- Clear process and assignment of responsibilities for meter maintenance and inspection;
- Performance Bond from the MAP;
- Understanding of tariff reclassification process for MAP customers;
- Sensitisation program for customers in affected areas; and
- Plan for implementation, monitoring and evaluation of the MAP.

EMRC can help support you in these processes.
